

Symbols

Garbage does not belong in nature, so please keep the historical landscapes of Pyhätunturi tidy by taking your trash to designated recycling points. Please remember that hiking in the national park area is completely litter-free.

The map on the flier helps you find your nearest recycling points and information about their recycling possibilities.

With the help of the Pyhätunturi waste management development project and an initiative by the local youth, numerous new garbage bins have been provided to the area to support sustainable traveling.

Thank you for caring about the nature!

Let's keep
Pyhätunturi
clean

pelkosenniemi.fi

Symbol labels are on the other side of the flier

More information about the recycling points at kierratys.info

ATTENTION!
 The mixed waste regional collection containers are intended only for households paying the regional collection fee. Please check your own sorting point specific to your home or cottage.
 Household waste management is organised by Lapeco.
